Ostrava

Developer with 4+ years of experience in web and mobile application development. I have also worked as a project manager on client projects, from requirements analysis through to delivery. I am completing my Master's degree in Applied Computer Science.

Work Experience

Full-stack Developer · **Smartgis s.r.o.** Apr 2023 – Sep 2026

- Led client projects as a project manager: requirements analysis, client communication and coordination of delivery, including managing and implementing requested changes
- Development and maintenance of full-stack web applications with a focus on the frontend
- Designing user interfaces in Figma and turning them into production code
- Beyond web, development of cross-platform mobile applications in Flutter

Content Creator · **Folklor bez hranic Ostrava** Jun 2023 – present

- Filming, editing and publishing content for the festival's Instagram, occasionally on camera

Software Developer · **TietoEVRY** Jul 2022 – Dec 2022

- Development of web applications in ASP.NET (C#) and React

Barista · **Cokafe** May 2019 – Jun 2022

- Customer communication and teamwork

Instructor & Event Organiser · **Firemky s.r.o.** Sep 2016 – May 2019

- Coordinating and training teams of animators, communicating with event organisers

Selected Projects

Personal finance management app with financial literacy support
Master's thesis – a web application for personal finance management that also teaches financial literacy, with an integrated AI agent. Defence in January 2027.

Web presentation of study plans
Bachelor's thesis – a web application presenting the study plans of Palacký University Olomouc. It can generate promotional materials and customise how data is presented.

Studio Opachová studio-opachova.cz

Client project – a website for a beauty studio. I led the whole process myself, from requirements through design to delivery.
